Fuel Your Ideas Into Action with ACWA Power's O&M Innovation Challenge

OVERVIEW

As a leader in the energy industry, ACWA Power is committed to delivering excellence through reliable, efficient, and sustainable O&M throughout its fleet, which is also one of its key strategic objectives.

O&M Innovation Challenge is an opportunity for you to be part of this mission by submitting your futuristic & innovative ideas to help reshape ACWA Power's O&M in terms of Plant productivity and Equipment reliability.

A wise person once said, "If you always do what you've always done, you always get what you've always gotten"

If you have ideas that encapsulate this challenge's focus areas, this is the platform to foster them into becoming a reality!

FOCUS AREAS

The main aim of this challenge is to enhance ACWA Power's competitive edge through consistent process improvement and resource optimization. We devised this challenge and decided to focus on collecting creative and innovative ideas that focus on improvement of two areas:

The two main focus areas of this O&M Innovation Challenge will be:

1. Plant Performance Improvement & Optimization

Ideas related to but not limited to, plant efficiency improvement, process improvement and optimization, energy-efficient practices, preventive and corrective maintenance practices and many more..

2. Equipment Reliability Enhancement

Ideas related to but not limited to, predictive maintenance, reduction in downtimes, asset management, RCAs, condition monitoring, equipment upgrading and retrofitting, spare parts management, operator/engineer trainings and mentorships and many more ..

PARTICIPATION RULES & TIMELINE

Rules:

1. Only group participation is allowed.
2. More weightage will be given to cross-functional groups, which includes NOMAC, ACWA Power, NMES, Project Companies and O&M Companies.
3. The top 03 ideas will be selected as 03 winners of the challenge.

Timeline:

Idea Submission Deadline – 5th Apr, 2023

Shortlisted Ideas Announcement – 15th May, 2023

Presentations - 22nd – 31st May, 2023

Final Evaluation by Jury – Within June, 2023

Winner Announcement - Within July, 2023

WHY SHOULD YOU PARTICIPATE?

Your participation in this challenge will:

- Increase your visibility and exposure
- Enhance your problem-solving skills

- Encourage your learning and growth
- Polish your teamwork skills
- Potential to directly impact the company's bottom line

AWARDS

The top 3 ideas will be recognized and appreciated with the following laurels:

- Recognition dinner or lunch with MC members
- Trophy
- Certificates
- iPhone / iPad / Apple Watches

OUR SPONSORS
